Email ID: durveshkulkarni55@gmail.com

LinkedIn: <https://www.linkedin.com/in/durvesh-kulkarni-832649136/>

PROFILE SUMMARY

A proficient web developer with approx. 4 years of experience in analysing applications for development, testing, and collaboration across teams and improving performance. Skilled in .NET Core, ASP.NET MVC, Entity Framework, HTML, CSS, JavaScript, jQuery, Angular (16+) and ReactJS expertise in code optimization techniques like minifications and compression. Committed to knowledge sharing and fostering a supportive team environment, providing technical support and guidance to colleagues on optimization-related challenges.

TECHNICAL SKILLS

Languages: C#, JS, HTML/CSS, Java	Frameworks: ASP.Net Core Web API, ASP.Net Core MVC
Developer Tools: JIRA, Bitbucket, SQL (MySQL)	Platforms: VS Code, Visual Studio, Spring tool Suite
Libraries: Select2, jQuery, ReactJS, Angular (16+)	Cloud Technology: AWS EC2, GCP

EXPERIENCE

SAVANT CONSULTING

APR -2025 - Present

1. Ecommerce Recommendation System

Technology: Angular, ASP.NET Core Web API, Azure, HTML, CSS, Bootstrap, JavaScript, SQL Server
Description:

- Developed product recommendation **and prediction features** to boost customer engagement.
- Designed scalable Web APIs using ASP.NET Core and Entity Framework for efficient data handling.
- Developed responsive and dynamic **UI using Angular** with Bootstrap and CSS.
- Built business analytics dashboards to visualize product click-through and buy ratios.
- Deployed and integrated services using **Microsoft Azure cloud platform**.
- Collaborated with cross-functional teams to gather requirements and ensure timely delivery.

2. Water Scope Project (USA Client)

Technologies: ASP.NET Core, Angular, Entity Framework, SQL Server

Description:

- Built interactive dashboards and reporting tools for environmental data tracking.
- Integrated Angular components with .NET APIs to visualize real-time sensor and water data.
- Collaborated with the client to enhance UI performance and resolve front-end issues related to **Kendo UI components** (grids, charts, and forms).
- Improved responsiveness and data-binding efficiency across critical modules.

3. Automation System

Technology: Selenium with C#

Description:

- Designed and implemented a **robust Selenium automation framework** in C# to test 3 production web applications, ensuring reliability and maintainability.
- Automated **end-to-end regression, functional, and smoke test cases**, reducing manual testing efforts by **70%** and improving release cycle efficiency.
- Developed and integrated an **automated email notification system** that sends daily reports of failed scenarios to stakeholders every 24 hours, enabling quicker issue resolution and transparency.
- Integrated automation scripts into the **CI/CD pipeline (Azure DevOps/Jenkins)** for continuous testing and faster feedback.
- Delivered **90% faster validation of business-critical workflows**, improving product release quality and reducing production defects.

IKS HEALTH MUMBAI

MAY - 2022 – APR - 2025

1. Eve Project

Technology: ASP.Net Core, JS, jQuery, html, CSS, Bootstrap, Google cloud functions, MySQL, AJAX
Description:

- Worked on a full-stack web application using ASP.Net Core, JavaScript, jQuery, MySQL and GCP
- Optimized server-side logic, data models, and controllers using best practices and design patterns.
- Utilize Datatable.js library to improve the efficiency and aesthetics
- Implemented Email functionality for sending Daily Reports.
- Collaborated with cross-functional teams to align on project requirements and objectives.
- Optimized code with minification, compression, and async loading to enhance website performance.

2. Manual Data Loader

Technology: Entity Framework Core, JavaScript, jQuery, MySQL

Description:

- Created and maintain a robust data loader to manage appointment data effectively
- Collaborated with health experts to accurately map appointments to visit reasons
- Improved the accuracy of appointment data mapping by 80%, resulting in better patient management & care.
- Streamlined appointment workflows to improve efficiency for healthcare professionals.

3. G-Central Project

Technology: Angular, ASP.Net Core API, My SQL, AWS, JWT

Description:

- Built a centralized system to eliminate data duplication and manage client-vendor mappings.
- Developed backend services on AWS EC2 and managed storage using S3.

EDUCATION

Postgraduate Diploma in Advance Computing	CDAC - ACTs Pune	Sep. 2021 – May 2022
Bachelors of Engineering (Mechanical Engineering)	SKNCOE - Pune	June. 2014 – June 2018

AWARDS

Value Champion Award: - I was awarded as value champion award in IKS for living the values of IKS Health.

PROJECTS

- MHCMS (Mental Health Care Management System) - Java Spring Boot, Maven, ReactJS, MySQL. [GitHub](#)
 - Full-stack web app with JWT authentication, chart libraries, and email notifications.
- ESTORE - Angular, NodeJS, MySQL. [GitHub](#)
 - Modular e-commerce app with JWT authentication, RESTful APIs, and responsive UI.
- EMPLOYEE MANAGEMENT BACKEND - .NET, C#. [GitHub](#)
 - Employee management system with custom JWT authentication and efficient API communication.
- GMAIL CLONE - ReactJS, Python, MySQL. [GitHub](#)
 - Email application with bulk email functionality and data table display.
